

## Sponsor a child

There are thousands of children who are in need of help. You can help a child or more. No donation is small. Your help can change the destiny of a child. Be a helping hand and feel the joy of giving. You can sponsor one, two or any number of children. All our ongoing programmes are open for you. Be a part of it. You can also help/support our children for their higher studies.

## Help Fundraising

We at Carmel, our friends and well wishers are working hard to raise funds through different programs to ensure the smooth functioning of our ongoing projects. We are looking for more friends and well wishers who can be a part of this noble cause by helping us to raise funds from their workplace, neighborhood and through other events. You can also promote our cause. You may please write to us your valuable suggestions and recommendations to: [info@carmelcdc.com](mailto:info@carmelcdc.com).

## DONATE

All donations to Carmel Community Trust are eligible for 50% tax exemption under section 80G of the Income Tax Act within India.

100% tax exemption is also possible under section 35 AC for which we are already working. You can contact us for further update on this.

You can make a cheque in favor of "Carmel Community Trust" or make online payment through NEFT to our account as below:

*Transforming lives, from slums to schools*

## HELP them ACHIEVE their DREAMS

Every child has a dream - some want to become Doctors, some Engineers, some Advocates and some Chartered Accountants, but the question is how many of them are able to achieve their dreams. Not many of them! The cruel fact is that many of these children end up doing petty jobs as they succumb to the pressure of their financial situation. Poverty is a curse and these poor children falls prey to their situation as there is no one to support them. However there are some blessed children who get sponsors, supporters for help to realize their dreams but they are very few.

In all our Child Development Centers, we are working hard for these poor children to ensure they have a bright future. Our aim is to equip them with the power of education and help them to achieve their dreams.

Today we are proud to see some of our children working as Engineers, Fashion Designers, Journalists, Teachers, Accountants etc in reputed multinational and govt organizations. We were able to bring them out from the slums to the main stream of our society. Educating one child means saving a complete generation. It would have not been possible for us to do it alone without the help of our supporters, donors and sponsors.

The lack of resources causes thousands of children in India to drop out of school every year. At Carmel, we understand their needs. Having started with just 3 children in the year 1996, we have over 4500 children today studying with us in our 14 literacy centers spread over south Delhi. At Carmel, we endeavor to see all our children educated and reach the epitome of success in their life. Carmel Child Development Centre is a social wing of Carmel Community Trust which is working tirelessly for the benefit of poor people and marginalized women through their different programs.

## WHAT WE DO

### CHILD DEVELOPMENT PROGRAM

Carmel Child Development Centers in different parts of south Delhi is making all the efforts to address the educational and developmental needs of the children belonging to weaker economic sections who are not availing any formal schooling. Majority of these children comes from the rag picker and rickshaw puller families.

### CARMEL COMMUNITY SCHOOL

Carmel community school in Sangam Vihar started in a very modest way in 2005. Today we have about 380 children in our school. CCS is an elementary school recognized by the Directorate of Education. The school is run on no profit and no loss basis. Please visit our facebook page link (<https://www.facebook.com/carmel.cs>).

### NIOS (National Institute of Open Schooling) program

Carmel is affiliated to NIOS for its OBE program till 8th grade. We have started this program for those children who are constrained to work for a living and have burden to look after their families. This program helps them to go to work and at the same time, they can continue with their studies. They can study at home and attend their classes once in a week.

### Computer Literacy Program

In Carmel CDC, we have computer courses in partnership with NIIT Foundation for our kids to empower them with computer skills.

### Sponsorship program

We support many of our meritorious children for higher studies and encourage them to join professional diploma/degree courses like fashion designing, teaching, engineering and other high profile job oriented courses.

### Carmel Awareness Camps

Carmel CDC is committed to provide healthcare to those who otherwise go untreated. Carmel regularly organizes AIDS awareness camps, conducts Medical/Health camps, cleanliness drives, workshops to bring awareness to marginalized women.

### Carmel Compassion Program

We provide to the poorest of poor in the community with all household items and help them to become self dependant. Through Blanket distribution during the chilling winter, we help hundreds of poor children and families by distributing free blankets and quilts.

### Women Empowerment Program

We conduct counseling seminars for marginalized women who are grappled with depression and suicidal tendencies. Extreme poverty is one of the main reasons, which makes them fall prey in the hands of human traffickers. We empower women from marginalized society by providing vocational training in tailoring, beautician and computer courses so that they become self dependant.

### Latest Project

Most of our child development centers are run on rented premises. By having our own building we can save huge rent that we are paying now and that could be used for the welfare of more children in need. We plan to open a Center wherein we can accommodate most of our children from different centers under one roof thus saving a huge rent.
